Dear Dick,

I am attaching a recap of the total estimated Program Costs as we know them to date.

There have been several different proposals and so many discussions that the program costs were becoming hazy. The attached recap of costs is as we understand them. If this agrees with your concept I would appreciate your written confirmation.

In the future, if there are any additions or changes to the Program costs, I think it would be desirable if they could be presented in such a fashion as to tie into the cost elements reflected in the attached recap.

Very truly yours,

Dan
